Songs Invite Us to Feel Our Feelings

Thousands of years ago, people wrote songs to God that told God about how they were feeling. Sad, glad, worried, joyful, angry—they could share all their emotions with God!

People still write songs that tell God how they are feeling. Maybe you are singing one in the worship service today. Look at these words about feelings.

Are you feeling any of them today? Underline those feelings words. Then write about the song at the bottom of this page.

Can you find any of them in a song from worship today?*
